Knauf Safeboard

Knauf high performance boards offer the convenience of plasterboard but with significantly higher performance in key areas. The Knauf high performance board range includes solutions for elements of fire, moisture, vapour, sound, impact resistance, X-ray resistance and even temperature regulation.

Knauf Safeboard is an X-ray resistant plasterboard with barium sulphate in its core. It effectively and significantly reduces the amount of lead needed within X-ray shielding partitions, in many cases removing the need for lead altogether.

Compliance: EN 520 Types D and F.

Sustainability Credentials

Environmental / Sustainability Policy Available	Yes
Recycled Content	26.00%*

* Recycled content calculated in accordance with ISO 14021

Evidence to support LEED Certification
